Fabien

Introduction & Research

- Dr. Fabien Geyer
- Postdoc at Chair of Network Architectures and Services, TUM
- `https://net.in.tum.de/~fgeyer`

- Novel applications of ML for networks
- Performance evaluation of networks and QoS
- New paradigm for switches and routers: SDN and P4

Data-Driven Networks and Machine Learning for Networks

- Which pain points of computer networks are worth automating?

New Paradigms for Packet Processing

- Is there a killer application for P4 and related technologies?
