MIR³
September 16-17, 2019

Research Interests

- Internet Measurements
- Distributed Internet, Decentralization, Consolidation
 - Infrastructures, Architectures
 - Building Blocks, Protocols
- Content Delivery
- Censorship, Privacy, Anonymity, Security

Current Questions

- Notion of increasing Internet consolidation: truth or myth?
 - DNS resolution, Web content
 - Others? What and how to measure?
- Decentralization efforts
 - Promising technologies or solutions?
 - Potential game changer or rather niche/utopia?
- Implications of consolidation?
 - Technical, economical, political, ...
 - Policies?
 - Opportunities, risks?
 - For the near and distant future?
