Endri Goshi

Email: endri.goshi@tum.de

About me:

- M. Sc. Communications Engineering
- Research Assistant / Ph.D. Candidate
- Chair of Communication Networks, TUM
- July 2019 - Present

Research Interests:

- 5G Core Netowrks
- Software Defined Networking (SDN)
- Network Function Virtualization (NFV)

Softwarized 5G Core Networks

Open Questions:

- Virtual Network Functions (VNFs):
  - How to optimize resource allocation for each VNF?
  - Where should 5G VNFs be placed to optimize QoS and user experience?

- 5G RAN+Core network slicing:
  - Optimal service-chaining within a slice.
  - How to guarantee slice isolation?
  - Security issues in a sliced network.
