

**Imperial College
London**

Anna Maria Mandalari

Research Associate - Advised by Hamed Haddadi

Research:

- Privacy in IoT environments

Databox

- Internet measurement platforms and middleboxes

Marie Skłodowska-Curie Actions, ITN METRICS

Research Topics :

- Tools for collecting IoT data for conducting a multidimensional analysis of information exposure from IoT devices
- Characterizing information exposure in IoT environments
- Understanding the risks in depth of such exposure from the point of view of the user
- IoT blocker
