

# Our supporters

**[your logo could go here]**

# Jörg Ott

- TUM, CS, Chair of Connected Mobility

## Some current interests

- QUIC for real-time transport
- Cloudless networking and “Distributed Internet”
- In-network computing for mobile users
  - Application (de)composition and service migration
  - Taking another look at ubiquitous computing environments
  - Exploring different languages and flavors of “virtualization”
  - Case study: Internet of Things

# Questions

- Privacy in today's Internet and beyond
- Security for distributed applications
