

Matthias Wählisch :: Research

Design and evaluation of networking protocols and architectures

Internet measurements and analysis

Transforming solid research into practice, trying to improve Internet communication

Questions

What did we learn from >40 years of the Internet?

The Web is not the Internet!

How can we prevent monopolies by network design?

Decentralization does not prevent business consolidation.

Achievements outside of Google scholar ;)

- BBQs for 150 colleagues, IETF Warm-Up '13 and '16
- 4 course dinner for 40 seated people
- 7 course dinner for 12 seated people
- +++
