- 2013: Dissertation on useable security in unmanaged environments, e.g. home networks
- 2013... Privacy-preserving data processing in IoT networks
- 2016... Tamper-resistant (network) management with DLT
- 2017... Network Security lecture
- 2018... Performance/properties of DLT
- 2019... Distributed * (transparency overlay, threshold crypto, ...)

Questions

- How can we build systems that manage/process sensitive data in a tamper-resistant/fault-resistant manner?
