Lucas Vogel

Postdoc at the Chair of Distributed and Networked Systems, TUD

Interests:

- **Website Performance**

  - Reasons for & impact of slow-loading web pages

- **Loading Speed Improvements**

  - Utilizing the full potential of modern protocols

  - Making the Web faster with streams

Questions

What are (protocol) changes needed to make the Web accessible to everyone – especially in difficult network conditions?

How do we utilize the potential of HTTP/3 in low-bandwidth networks?

Should we create a "fast" Web standard?
