

Mathis Engelbart

- PhD Student at TUM Chair of Connected Mobility
- Research Interests
 - Transport Protocols
 - Real-time Media
 - Congestion Control

Discussion topics

- How to multiplex / fair sharing real-time and non-real-time streams
 - E.g., RTP and Data Channels over QUIC similar to WebRTC but sharing a common transport
- Media over QUIC
- Use cases for real-time streaming point clouds
- Partial reliability in real-time transport protocols
