Max Inden

Software Engineer at Mozilla

Working on Firefox's QUIC/HTTP3
implementation

Open Questions

- Advances in congestion control (e.g. L4S, BRR)

- Experience with Happy Eyeball v3

- Improving privacy for the many (ECH, DOH, MASQUE, ..)

- Aspects (legal, policy, technical) of DOH deployment impediments

- Improving HTTP/3 long tail adoption

- Ongoing development efforts around WebTransport, MOQ and MASQUE
