

## Michael Oberrauch

### About me

- B. Sc. @ TU Graz, M. Sc. Informatics @ TUM
- Now for one year member of the Chair of Network Architectures and Services
- Simultaneously part of the Systems Group of the IT Operations (ITO) of the TUM School of CIT

### Research areas

- Internet Measurements
- Global Internet routing (BGP)
- Network Security

Michael Oberrauch

## Poster: TUM Infrastructure for SLICES-DE

- Infrastructure we operate at ITO
- Already utilized in some part by the chair's research
- More important base for future SLICES-DE to build upon.

## Open Questions

- How resilient is the regional and global Internet? Can we measure that?
- What are the factors that contribute to (or diminish) that resiliency?
