

Master theses / Bachelor theses as-of winter term 2016

In cooperation with the chair in Data Processing (LDV) we are offering interesting topics in the field of **Big Data Mining** and **Machine Learning** for your Master or Bachelor thesis. It revolves about the key areas of *Matrix Completion, Clustering Methods, Optimizing, Record linkage, Big Data Implementation, etc.*

Mercateo is Europe's leading e-procurement platform for business customers. Among the more than one million of its current customers are companies of all sizes, from listed corporations to SMEs to freelancers as well as numerous public organisations. The resultant amount of data provides an interesting basis for challenging tasks within Big Data and for developing innovative solution strategies.

We offer:

- An employment for Mercateo, one of the Top-Players within e-procurement – with high growth rates and outstanding future prospects
- Excellent and individual academic mentoring according to highest standards
- Friendly, cooperative colleagues and an experienced management team in a transparent and fair business culture with a flat hierarchy
- A lot of creative freedom and the chance of a long-standing career with Mercateo
- Location in the middle of Munich, directly at the Marienplatz
- High degree of self-responsibility and an attractive compensation
- Close cooperation with the chair in Data Processing (LDV) at the TU Munich

Did we wake up your interest? In order to provide you with an individual topic, please send an E-Mail to your contact person **Dr. Martin Kleinsteuber** via martin.kleinsteuber@mercateo.com – *subject: Thesis Project*

Furthermore, we are interested in what know-how and interests you bring along.

We are looking forward to hear from you soon!
